

Introducing the Parent Canvas App

Our district uses the Canvas Learning Management System to facilitate student learning. The good news for you is that Canvas has a Parent App that is designed to help parents/guardians become partners in their child's education and to assist their children in successfully meeting their learning goals. Through this app parents/guardians can set automated notifications to stay informed of upcoming due dates on assignments including when assignments are late or missing; monitor their child's performance; check teacher feedback on graded assignments; and communicate with teachers.

To learn more about how to access this app please feel free to read the instructions found at this link:
