### MILK SUBSTITUTION RULE:

During the 2010-2011 School Year - USDA Regulations 7CFR Part 15B addressed the fluid milk consumption of students. If a student has milk intolerance – Lactose Intolerance: PDE does not recognize this as a life threatening allergy but as sensitivity– therefore we will offer Lactaid as a replacement at no addition cost. Parents can request that the child be able to purchase a 100% juice box (\$.75cents) or water (\$.55cents) as an a la carte item in addition to the price of the meal.

Students with **life threatening food allergies** are required to contact their school nurse to complete a medical plan of care.
