

Upgrades for South Fayette's Food Service - "My School Bucks" – More Efficient for Parents

As of July 1, 2015, South Fayette Twp School Food Service in partnership with Heartland Processing will upgrade to a more efficient percentage based parent paid model. Instead of the flat \$2.50 per transaction, Heartland will charge 3.95% on the parent paid amount. Heartland is able to eliminate the third-party secure processor and initiate their own direct processing capabilities to save parents time and additional fees. Parents will notice a savings when depositing money into their students cafeteria account.

(www.myschoolbucks.com)

Heartland will accept Visa, Discover, MasterCard, but will no longer accept American Express. Our attempt is to be proactive and to offer our parents a service that not only saves time, but saves money. In order to maximize the benefit of the percentage based parent model, a per transaction deposit amount of not more than \$60.00 is recommended.

MySchoolBucks is an online payment solution that makes it easy for students and parents to securely pay for school meals. Seamless integration with our Point of Sale systems means that student balances are deposited at a faster rate. Our district's parents enjoy 24/7/365 access to their student's school meal account balance and purchase history. Also, parents have the ability to create low-balance reminders and configure automatic or recurring payments for meal purchases.

Key Features

- *Fully hosted by Heartland
- *View students purchase history for the last 90 days
- *Available 24/7/365 for parent convenience
- *Family accounts
- *No need to write checks or have cash on hand. Pay with a credit card, debit card or e-check.
- *Peace-of-mind knowing your payment has been received by the school.
- *Receive automatic low balance email reminders
- *Mobile app for iPhone, Android and Windows Phone

Why do student's prefer MySchoolBucks?

The lines are faster and having direct deposit reduces cash handling. Parents have more control of how the student is spending.
